

**REMARKS**

Applicants thank the Examiner for telephone calls on May 14, 2008, and June 13, 2008, in which the Office Action and the figures were discussed with Applicants' representative. The Examiner indicated that a new Fig. 1A would be fully responsive to the points raised by the Examiner in the Office Action of December 11, 2007, and the telephone call of May 14, 2008. Accordingly, the present response is believed to constitute a complete written statement of the reasons presented in the interview as warranting favorable action, as required by 37 C.F.R. §1.133.

Applicants have added new Figure 1A, showing a microreactor having more than one reaction unit. Support for this amendment can be found in the specification, for instance, on p. 6, lines 26-28. Accordingly, no new matter has been added.

Claims 166, 167, 184, 188, 189, and 199 remain pending for examination.

In view of the foregoing, this application should now be in condition for allowance. A notice to this effect is respectfully requested. If the Examiner believes, after this response, that the application is not in condition for allowance, the Examiner is requested to call the undersigned at the telephone number listed below.

If this response is not considered timely filed and if a request for an extension of time is otherwise absent, Applicants hereby request any necessary extension of time. If there is a fee occasioned by this response, including an extension fee, that is not covered by an enclosed check, please charge any deficiency to Deposit Account No. 23/2825.

Dated: 07/01/2008

Respectfully submitted,

By
